INTERNSHIP!

AGUAClara Summer Research Program

Part-Time (10-15 hr/wk) or Full-Time (25-35 hr/wk)

June 13th to August 9th, 2011

All engineers, all years accepted!

DESIGN LABORATORY RESEARCH
ANALYTICAL MODELING

Specific projects include:

- Improving the online design tool
- Novel filtration applications for small-scale communities
- Improvement of sustainable, automated chemical dosing system in our plants
- Design of more efficient water treatment unit processes in the laboratory
